THURSDAY, NOVEMBER 1, 1956

VIRGINIA, ILLINOIS

(4-H Club Fairgrounds)

SALE STARTS AT 11:00 A.M.

Selling good useful females like these, in their working clothes is the purpose of this sale.

The Largest Sale of Its Kind Ever Held in Illinois

Shorthorns and Polled Shorthorns are the most profitable beef cattle. They give you more pounds of beef per acre of grass.

The largest concentration of numbers of this breed is found on the moderate sized farms of the Midwest. These are not large herds, but there are many of them. Because the herds are of moderate size, there is a better opportunity to observe the production of each cow. These herds afford an ideal place to buy foundation stock, whether you plan to operate them as purebreds or commercials.

The difficulty is that the man who wants to buy and get started with a complete working unit at one time, finds it difficult to secure in one place the number of Shorthorn females he desires. Often he turns to ordering stock cows off the range.

The purpose of this sale, is to each year gather together in one large female sale these small packages of good quality females available for sale. We do not bar a man from consigning to this sale because his females are in pasture flesh or because they are not broken to lead.

FREIGHT OR TRUCKING SUBSIDY

Because Shorthorn and Polled Shorthorn females are needed so badly in many sections of the country, we want to make it easier for buyers from a distance to purchase in this sale. A \$75 freight or trucking subsidy will be paid by this sale to any buyer or group of buyers purchasing twelve lots or more shipped to one destination more than 500 miles from Virginia, Illinois.

General Information

Date: Thursday, November 1, 1956. Sale starts at 11 a.m. sharp.

Location: 4-H Club Fairgrounds, Virginia, Ill. Behind the high school. Just off U. S. 67 at the south edge of town. Virginia is 32 miles northwest of Springfield.

Lunch: Will be served on the grounds.

Sale Headquarters: There are a number of good motels in the area. We will be happy to make reservations for you if advised in advance.

Guarantee: All cattle are sold under the Standard Guarantee of the American Shorthorn Breeders' Assn. A registry certificate will be properly transferred to the buyer for each animal sold, with the exception of calves under six months selling at foot with their dams, in which case an application for registry will be provided. Applications for registry will also be provided for each calf in dam.

Terms: The terms of the sale are cash unless other arrangements are made in advance with the consignor from whom you purchase. Settlements are to be made with the clerk of the sale immediately at the conclusion of the auction. All stock will be at buyer's risk as soon as bid off.

Health: All cattle will be tested for TB and Bangs within 30 days of the sale, with the exception of officially calfhood vaccinated animals under the maximum age, in which case vaccination certificates will be attached to the health papers.

Liability: Although every precaution will be exercised to protect the safety and comfort of those attending, neither the consignors, clerks, auctioneers, sale manager, or owners of premises can accept any liability for accidents that may occur. Accidents at cattle sales are rare, but every person attending must assume the liability to himself. The sale manager was retained for specific purposes, promotional and clerical, and has no connection with the handling of the cattle or the condition of the premises.

Trucking Facilities: There are many good, insured truckers locally that are available. We will be glad to help you make these arrangements or help you load on freight cars. If you wish, we can keep these cattle until you have had an opportunity to send for your truck from home or to contact a trucker near your home.

Scene at Nelson Farms, Geneseo, Illinois. They are selling four females in this sale. Their success in feeding loads of Shorthorn steers, prompted them to establish one of the finest purebred herds in the state.

126 Lots

PLUS MANY CALVES AT FOOT

19 BULLS These are top bulls. These are being charged the same sale expense they would incur in most any other sale. The purpose of having bulls in this sale was not to offer a cheap place to sell them, but to provide a group of top quality bulls for buyers. Because many new herds will be established we were careful in our bull selection, so that these buyers would be exposed only to the right kind.

107 FEMALE LOTS There are many good herds that are not consigning to our state and district sales because they are not set up to fit or halter break their cattle. Also, some breeders wish to sell all of the cattle they have for sale in one sale, and most other sales are not fixed to accommodate them. Some of the breed's best sires, some of the best herd programs are in such herds. Also, to help get this sale started, a number of breeders who are prominent in the show and sale rings have dipped into their herds to supply cattle for this offering.
